DANIEL NWEZE

FRONTEND ENGINEER | REACT | TYPESCRIPT | NEXT.JS

Nigeria | Remote & On-site | flashdaniel0@gmail.com | linkedin.com/in/daniel-nweze-017909214 | github.com/Flashdaniel | daniel-nweze.netlify.app

PROFESSIONAL SUMMARY

Frontend Engineer focused on building clean, accessible, responsive, user-centered web applications. Experienced with React, JavaScript, TypeScript, Next.js, modern UI systems, API integration, debugging, performance, and design-to-code implementation. Currently contributing to real-world software products and building scalable product experiences.

PROFESSIONAL EXPERIENCE

The Upskill Space — Frontend Developer | 2026–Present | Remote & On-site

Product: myRabbAi | myrabbai.com.ng

- Contribute to frontend development of myRabbAi, an AI-powered product built at The Upskill Space.
- Develop responsive, user-focused interfaces and translate product designs and requirements into production-ready features.
- Integrate frontend interfaces with APIs and backend services and resolve UI, responsiveness, and functional issues.
- Collaborate with product, design, and engineering teams on feature development, sprint planning, QA, documentation, and delivery.
- Improve accessibility, usability, performance, and consistency across desktop and mobile experiences.

SELECTED PROJECTS

Interactive Learning Platform | Next.js, React, TypeScript, Fumadocs, Supabase, Zustand

- Building learner/instructor dashboards, structured lesson authoring, interactive coding, multimedia learning, and role-based access.

CampusHQ — School Management Platform | React, TypeScript, Vite, Supabase, PWA

- Designing a scalable school SaaS for Nigeria with role-based dashboards, academic records, fees, results, permissions, and offline-first capabilities.

Audiophile E-Commerce | Next.js, React, Tailwind CSS, Convex

- Built a responsive e-commerce experience with reusable components and modern product interaction patterns.

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, shadcn/ui

State & Data: Zustand, TanStack Query, REST APIs, Supabase, Convex, Firebase

Engineering: Git/GitHub, Vite, ESLint, GitHub Actions, Docker, Responsive Design, Accessibility, Performance

Practices: Component Architecture, Design Systems, Agile/Scrum, SDLC, Technical Documentation

EDUCATION & CERTIFICATIONS

AltSchool Africa — School of Software Engineering | Frontend Engineering | Completed | 4.00 GPA / A-level performance

Harvard University — CS50 | Introduction to Computer Science | Completed

Target Roles: Frontend Engineer | React Developer | UI Engineer | Software Engineer | Product Engineer
